

Grading Practices

School: Princess Anne High School

Subject(s): Physics, AP Physics 1, Physics C

Grade Level: 10-12

Homework

Homework will be used for practice, to monitor student progress and to drive instruction.

Homework will be 10% of the overall grade.

If a student does not turn in homework, it must be turned in the next class period and can incur no more than a 10% penalty. If homework is reviewed during the class period it is due, no late assignments will be accepted.

Late Work

In the event of an absence, the student should check teacher/class website or contact a classmate or the teacher for any missed work BEFORE returning to class.

All missed work must be completed within a week of the student's return unless administrative approval is needed for extenuating circumstances.

Students must schedule a time to make up tests and quizzes after school or during a study block.

Explanation of Zeroes

MI (for missing assignments) will be associated with a default score of zero, to be replaced once the assignments have been completed during the current nine grading period.

If assignments are missing at the end of the grading period, they will remain an MI/0.

Reassessment

Students who receive a 75% or below on a graded assignment may be given an opportunity for additional instruction and reassessment provided that the student has

- participated in class
- completed assignments
- demonstrated evidence of the best effort on the assessment and the learning leading up to the assignment

Students must demonstrate mastery prior to retakes.

Retakes must be completed within a reasonable time-period as determined by the teacher

Make-up Work

See late work

Extra Credit

AP tests are curved. Corrections can be done to recover partial credit, usually half the credit up to 15 points max.
